INTERNATIONAL CONFERENCE ON COMPUTER SYSTEMS AND TECHNOLOGIES

CompSysTech'21

CALL FOR PAPERS

18-19.06.2021

University of Ruse Bulgaria

http://www.compsystech.org

◆ SUBMISSION REQUIREMENTS

Please be aware that ACM has introduced a new ACM Master Article Templates and Publication Workflow. Starting March 1, 2020, all ICPS events are required to use the new workflow: <https://www.acm.org/publications/taps/word-template-workflow>. Please, read it carefully! The Master article templates and workflow are to be used in conjunction with the ACM e-Rights System and the ACM CCS 2012 Author Support Tool found in the ACM Digital Library.

Microsoft Word: Write your paper using the [Submission Template](#) (Review Submission Format). Follow the embedded instructions to apply the paragraph styles to your various text elements. The text is in single-column format at this stage and no additional formatting is required at this point.

Upon acceptance, you will receive an email notification to download the **ACM Master Article Template - Microsoft Word**. Please choose the correct template version based on your platform: [MAC 2011, MAC 2016, or Windows] and save the .zip file to your local machine. Open the zip file and save the template file to your machine and then follow [these instructions](#) to attach the ACM ArticleTemplate to your accepted submission version and prepare your paper for validation.

LaTeX: Please use the latest version of the [Master Article Template - LaTeX](#) (1.75; published November 16, 2020) to create your article submission. Use the “manuscript” call to create a single column format. Please review the [LaTeX documentation](#) and [ACM's LaTeX best practices guide](#) should you have any questions.

As in the previous years please keep in mind that:

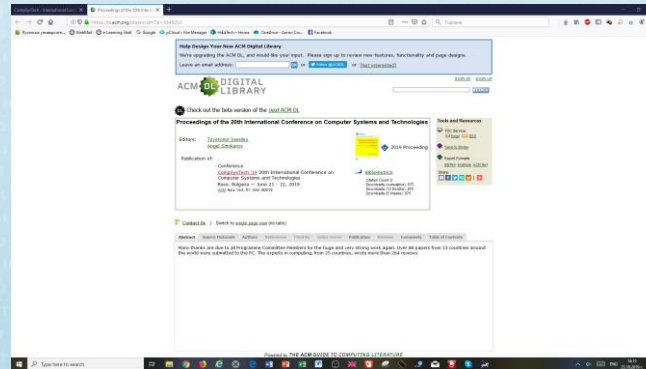

1. You are not allowed to change the title and the list of authors after announcing the results. So please do not add co-authors, delete co-authors or change their order.
2. Papers should be up to 8 pages long (12 pages for keynote speakers).

A person could be an author or a co-author of maximum of 3 papers.

Please do not include authors' names in your initial file submission so we can implement a blind review process.

◆ **CONFERENCE PROCEEDINGS** will include only papers which meet all formatting requirements and are accepted by the *CompSysTech'21* Programme Committee.

Since 2007 the proceedings of CompSysTech have also been published in the ACM Digital Library, registered in the US Congress Library and indexed in SCOPUS, dblp, etc.
